

Power Lock™ Backings *Blue Ridge has set the standard for performance carpet backing in high-traffic areas. For more than 25 years, Blue Ridge's customers have relied on Power Lock™ as their commercial carpet backing system. This innovative backing system features superior pattern-matching capabilities and roller mobility with no edge ravel and delamination for the useful life of the carpet. These performance-rich features – and an unsurpassed warranty program – will help ensure your next carpet installation stands the test of time. The latest innovation to this family of superior backings is Power Lock™ RE with the same high performance features you expect and a minimum of 10% total product post consumer recycled content.*
