NOTES:

1. Chair pads are recommended under office chairs with roller casters to preserve appearance retention, act as a deterrent toward delamination and to avoid premature or accelerated wear. Clean Step walk-off tiles by Blue Ridge or walk-off mats are recommended at building entryways to reduce soiling.
- 2.*Product specifications are derived from averages resulting from normal manufacturing tolerances in yarn, fiber, fabrication or finishing, and may vary within normal industry tolerances. Construction value quotes are "at point of manufacture". Performance is not affected by these variables
3. As with all patterned carpet, a perfect pattern match may not be possible due to the fact that carpet is a textile subject to shrinking and expansion in both length and width. A plus or minus 1% should be expected. However, a reasonable pattern match may be achieved by competent installers using power stretching and stay nailing techniques.
4. Installation of pattern carpet requires more time to install correctly, which should be considered in the original installation quotation.
